

How to Edit A Website Page in WordPress

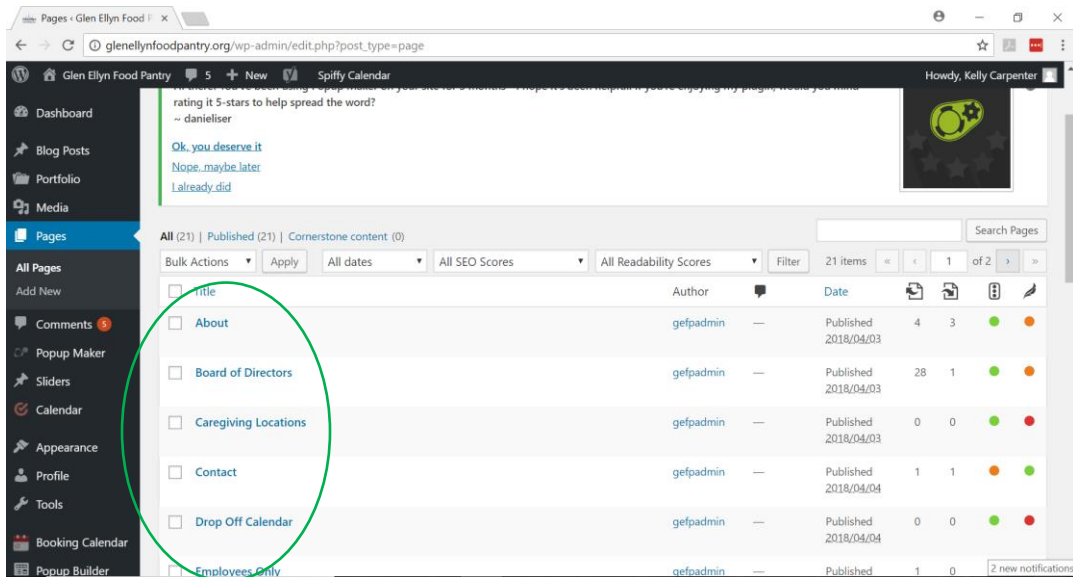

1. Select the Pages button located on the left side of the screen under Dashboard.

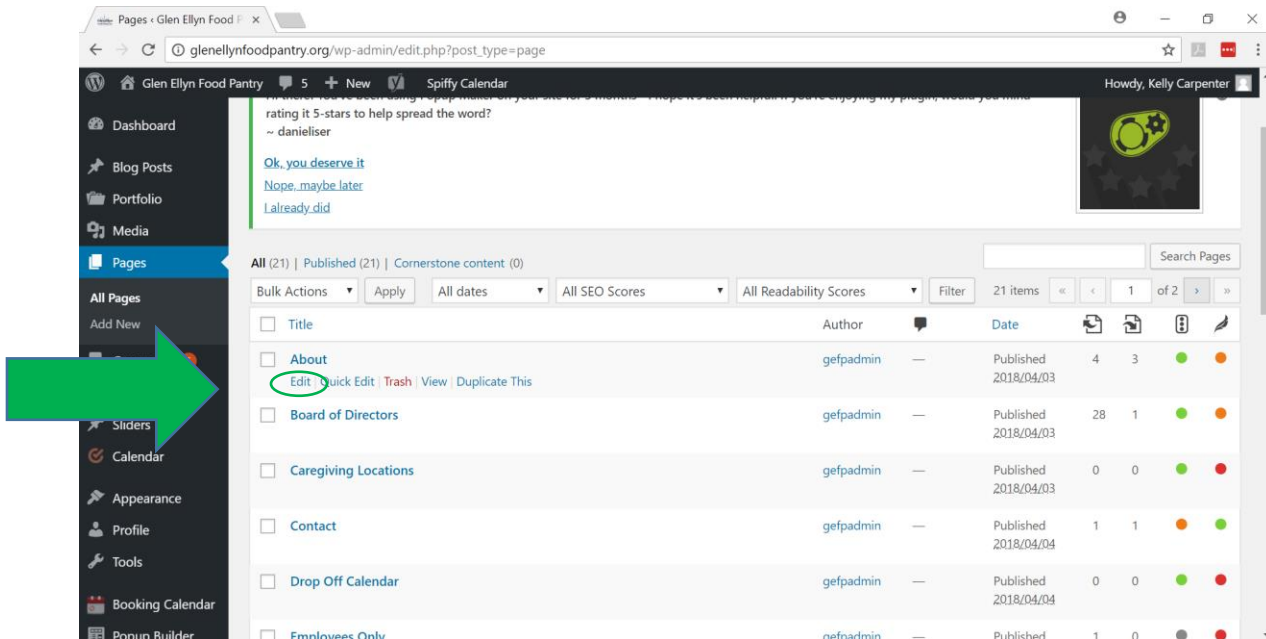

2. Scroll through the website pages until you can see the one you want to select.

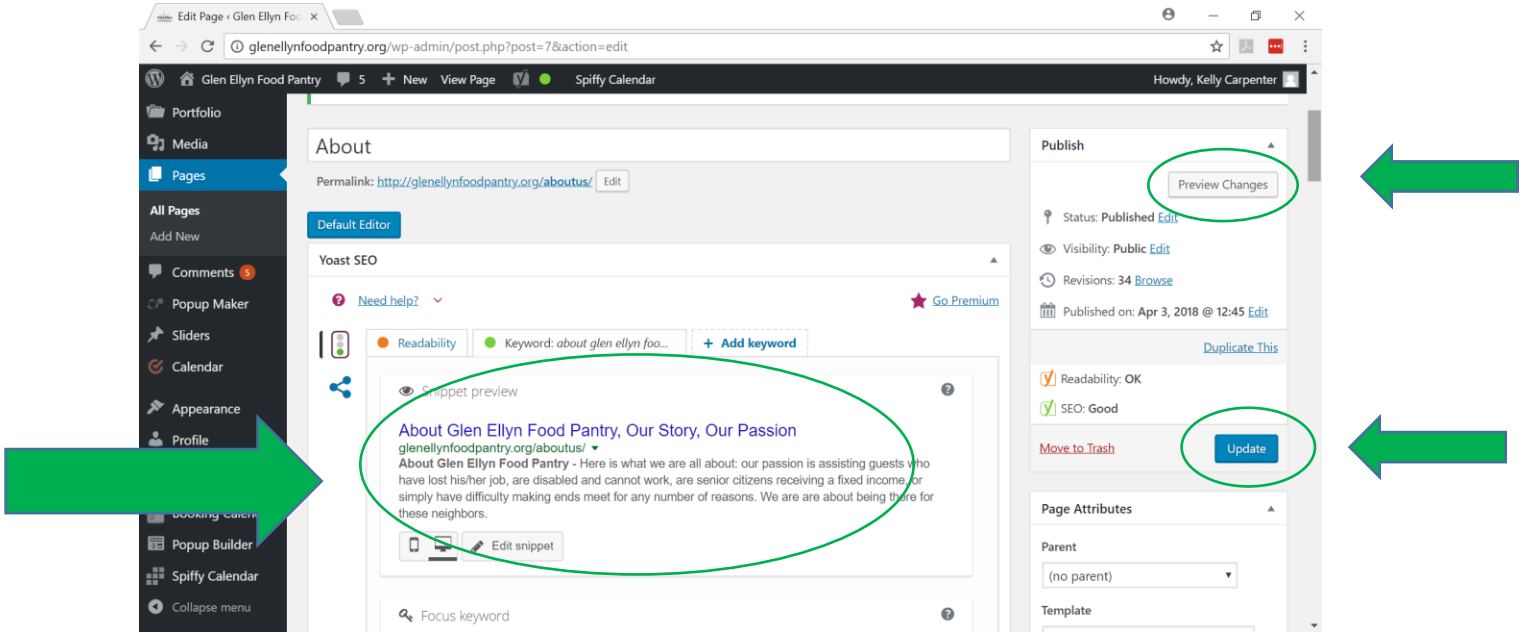

3. Hoover over the Title you desire to edit.

4. Select Edit for that specific page.

5. Edit as desired, using the toolbar similar to Microsoft Word but with less options.

6. Preview changes to proof and select update to publish the changes.
