IT CHECKLIST ASSESSMENT

Technology should be your BEST Employee. Weiskopf Consulting can resolve your individual technology needs by helping you find the solution that is best for YOUR Company and within budget. Weiskopf Consulting offers: Quick Support; Help Desk Services; Managed Concierge; and Time & Material Services.

IT Support

Do you have professional IT Support for your company? Yes No

Is your IT Support someone in your Office, not a professional? Yes No

Do your eyes ever glaze over when your staff describes IT needs or challenges?

Is your IT Plan...If it isn't broke, its fine?

Does your IT Professional help you to understand your needs?

Please contact us at (630) 474-3412 or DigitalStrategist@WeiskopfConsulting.com for a complementary one hour consultation to discuss how to improve your digital assessment.

IT Support Continued...

Do you sometimes feel like you don't know what types of IT questions to be asking to plan for your business's future.

- Do you feel you lack the necessary expertise to evaluate your IT needs, design solutions, deploy new processes and/or isolate and repair problems should they occur?
- Do you have a backup plan in place for critical documents, other than your hard drive?
- Have your computers been scanned recently for Malware, Viruses and Windows updates? Are they on a regular schedule?
- If you have multiple locations, is access to your shared documents and applications limited or slow for remote workers?

Has your company grown to the point that having existing staff handle IT duties is unreasonable.

- Do you sometimes wonder if your IT infrastructure should be assessed by an outside firm for potential vulnerabilities?
- When there's a problem, do you have trouble reaching or getting help from a real, live person?

Please contact us at (630) 474-3412 or DigitalStrategist@WeiskopfConsulting.com for a complementary one hour consultation to discuss how to improve your digital assessment.
